

## How to Set Your Electric Bill for Savings:

To start, go to **www.energizect.com** to set up options and find a company. Hit **Choose an Electric Supplier**, then **Compare Generation Offers**. You may also get there with **www.energizect.com/compare-energy-suppliers**, but this changes. (If you want a voice assist, call 1 877 WIZE use (947 3873) who will direct you to the same page.)

Note the top Orange Line with updates and previews on changing prices.

Decide what is best for you when you answer the questions:

**Type of Offer:** All residences are Fixed

**Term of Offer:** A billing period is a month, minimum period 4 months, maximum 36. How often do you want to check rates? (Personally I choose annually.)

**Fees:** For cancellation and enrollment. If you commit to a period, you don't need to worry about cancellation fees. If you want to play more, this may be important. Enrollment fees do decrease your overall cost but you have to figure the rate of return. How many months will it take to recoup that charge and is this the period to which you can commit? (Personally I only check no enrollment fees)

**Renewable Energy:** added fees for renewable energy development is why a minimum of 21% is required in CT. Your contribution is building this number towards more renewable energy in our mix. This option no longer gives individual towns credit for number of households enrolled (the Clean Energy Option).

**Maximum Rate:** If you are on a specific budget, this will filter out companies outside your limit.

**CLICK FILTER TO ENTER YOUR CHOICES** and anytime you change your choices.

Eversource will always be the first choice and it will not necessarily reflect your choices. It will be the closest offering they can present. Look at the next ones.

Check that the plan description is what you designated and compare the savings in the last column. Note that Eversource, which used to be twice as much as others, has become more competitive with their pricing.

Then either read more about the supplier, enroll, or call the number in the first column to do those things.

Set a date on your calendar based on your billing period choice to revisit.
